CARINA

Model 1090

- Geprüfte Qualität
- Garantierte Sicherheit
- Gesundes Wohnen

Typical product properties, warranty conditions,
safety instructions, and instructions for use and care are included in the
furniture product passport (www.carina-polstermoebel.de)

Model 1090

Product and ordering information

Frame: Load-bearing parts of the frame made of solid wood and wood-based materials, surfaces lined with padded cardboard.

Seat: Suspension system with permanently elastic steel sinuous springs and topside cover.

Soft: Seat made of PUR foam (min. RG 35), structured in layers harmonised in different thicknesses and hardnesses.
Seat covered with cotton wadding.

Spring core: Spring core seat made of drawn spring steel wire (except for stool). Seat covered with fabric wadding, PUR foam (min. RG 35) and cotton wadding.

Back: Back made from ergonomically shaped foam (min. RG 25). Cover made of cotton wadding.
The backrest tensioning parts are upholstered in genuine fabric. Also available in leather for a surcharge.

Cross-sleeper Upholstered in genuine fabric, upholstered in leather with tensioning material.

Armrests: Various armrests may be selected.

Foot: Wooden foot covered in metal or wooden foot - colour according to wood sample card

Contrast stitching: The contrast stitching is set off in beige.
Contrast stitching is not possible for the following covers due to the properties of the fabrics:
Cinema, Easy Care, Trend and Velvet.
For all other fabrics and leather qualities, contrast stitching is optionally available!
Your order must include either with or without contrast stitching.

Upholstery: Soft, light upholstery structure for which a wave formation in the covers and seat imprints are included based on the model or desired design.
The upholstery will adjust to the shape of the body and the seat rigidity will decrease slightly. Minor differences in the seat hardness with add-on groups are design-based and are therefore not a cause for complaint.
All suites are standardly delivered with the back covered in the original cover. Available in leather at a surcharge. All material-related information can be found on the back of the individual fabrics and leathers in our fabric and leather sampler.

Model 1090

Product and ordering information

Two colours:

fabric 1: Cover for back cushion + headrest (exclusively Lugano and Bolzano)

fabric 2: Cover for carcass seat and armrests (Venezia and all fabrics of the current collection - leather is not possible!)

The covers **Lugano** (PG 4) and **Bolzano** (PG 4) can only be selected for back cushions and headrests.
Venezia (PG 4) is the matching plain fabric that can be chosen for the carcass, seat and armrests, or in one color for the whole set.
A combination with fabrics from our current fabric collection is also possible - always the highest price group is calculated.
Excluded is the combination of leather and fabric!
The mentioned covers are not processed in repeating pattern!

The covers Lugano, Bolzano and Venezia can not be selected with contrast stitching.

two colours

one colour

All materials used meet the requirements of the DGM according to RAL GZ 430.
The distribution of the stitching may vary for fabric, leather and synthetic leather processing.
The definition of quilted mats and cushions depend on the design or structure.
The processing of decorative, fell and double seams may vary in the fabric, leather and synthetic leather variants.
Felled seam : The thread colour is adapted to the respective cover material and its colour.

All dimensions in the price list are approximate dimensions in centimeters, determined according to the usual measuring method (see RAL-GZ 430) and in unused new condition
Please note that in the case of especially light upholstered furniture, particularly in the seat height and seat depth, recognizable dimensional deviations to the dimensions stated can arise. We reserve the right to make changes in shape, colour and design in the scope of technical progress.

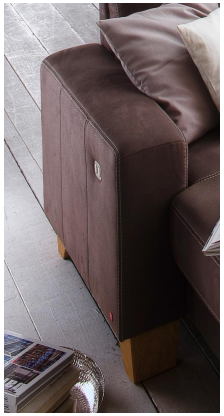
Please be aware that each element with an armrest must always be combined with a basic element for technical reasons (e.g., long chair or corner element...).
Elements with one or no armrest cannot be placed separately or combined together.
One element can become a basic element using a universal support foot (for a surcharge).
Please note: Only possible for elements without a function and only with one or no armrests. WEEE-Reg.-Nr. DE 34953752

Model 1090

Product and ordering information

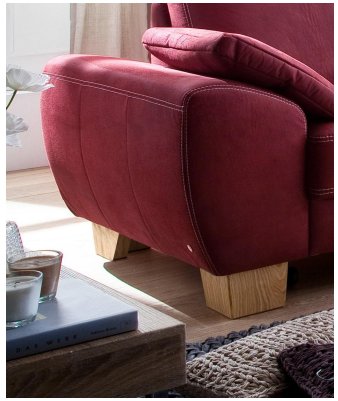
Armrest selection:

Please add the armrest dimension to the respective types



A

B



C

D

E

Armrest A: Standing width approx 22.5 cm
Armrest B: Standing width approx. 21 cm Total width approx. 26 cm, (rests 5 cm on the seat surface)
Armrest C: Overall width approx. 31 cm.
Armrest D: Overall width approx. 36 cm.
Armrest E folding (for a surcharge): Overall width approx. 36 cm.

Please ALWAYS state the desired armrest, a mix of armrests is not possible!

Leg selection:

Metal coated wooden leg

Wooden leg colour according to wood sample card

Oiled Oak wooden leg
